### Important Things for Israel to Know

Please Note: I have transcribed this to the best of my ability. Sound bites of parties speaking simultaneously and those inaudible to me have been deleted from the transcript. If I guessed at a word, it was followed by a ( )? A \_\_\_ (blank line) indicates I could not understand the word or phrase and three periods ... indicate an interruption in the dialogue of one party by another. Thank you for your understanding. MK

0:00 Good evening and welcome to Yada Yah Radio. We're going to take a completely different approach to tonight's program where I read to you the updated version of *At War with Religion*. I was tempted this evening to read the updated updated version *At War with Religion*; I have incorporated it into a complete rewrite of what was *Prophet of Doom*, now called *God Damned Religion*. The rewrite of the rewrite is vastly superior to the original version. It brings up every point that I think is essential to know in a fairly systematic and cohesive manner. Nonetheless, this evening we will talk about what has transpired and how the world has responded to it.

0:51 I want to begin this evening's program reminding our listeners, particularly those in Israel, that a year ago I said on this program that I was issuing a warning to Israel that a day would come, it could anywhere from a week, a month, a year or several years, but let me explain precisely what will happen and the consequence.

1:32 I said Iran would coordinate an attack through Hezbollah, Hamas, and a FATA through Islamic Jihad. In this attack, they will fire more rockets, missiles, and drones than the Iron Dome can shoot down, and, in that process, they are likely to send some 200,000 rockets into Israel and the collective use of the Iron Dome to shoot them down not only will be overwhelmed but that the rockets average about \$500 each. Interestingly, the water lines running into Gaza that Israel received condemnation for shutting off don't work anyway because the Gazans, Hamas, cut the water pipes into pieces to make rockets to shoot into Israeli cities. It costs about \$500 to make one of these crude rockets and a little over \$100,000 to make an Iron Dome interceptor. So, if that's how this game is played, Israel will go bankrupt and lose.

3:08 Worse than that, I said with the Iranian capability as it relates to guidance systems (rockets and drones) and how far they can fly, Israeli cities will be destroyed. There won't be an occasional fire in a parking lot or apartment because either the Iron Dome failed, or a fragment of the blown-up missile fell into an Israeli-

inhabited area. With 200,000 far better-guided missiles and longer-range missiles, Israeli cities will be devastated. I would say it will be one hundred-fold worse than what Israel witnessed.

4:03 The next thing I said would happen is that rather than sending in 1,500 or 2,000 jihadists, between the coordinated groups not just from the southern but from the north, east, and west, there will be in the range of 150,000 jihadists. With that many rockets firing overhead, you won't have twenty-two border communities overrun, but more like 100 or 150. They won't be overrun with twenty jihadists per city but 2,000 per town because the IDF is not equipped to deal with that kind of attack. It's built to deal with another Six-Day War, Yom Kippur War, a military war where fighter jets and tanks make a difference. In this case, tanks and fighter jets are useless. So, with that many jihadists in that many smaller Israeli towns, all the small ones, with the larger ones having been destroyed by the onslaught of rockets and missiles and the IDF not having any response. Their response will be no better than it was on October 7. That's what I said a year ago. As a result, Israel will be in a position where they will have to sue for peace or be annihilated. Suing for peace will be that acceptance of the Two-State Solution, which is the Neville Chamberlain moment where Israel becomes so vulnerable as to cease to exist. That's what I said a year ago. The first version of that happened, and what Iran proved is that that plan will prevail. Israel, that is your future. If you do not have a Hezekiah moment, walk away from politics and religion and come to know Yahowah; that is your reality.

6:47 The world's reaction to Israel, I told you that the United States would be a Trojan Horse, even by the United States, is so jaundiced that it appears that no one understands what's at play here. The president the other day drew a moral equivalent between the one psychotic individual who shot and killed a 12-year-old Muslim boy just because he was mentally ill. He didn't do it at the urging of a country, didn't do it with 2,500 of his friends, didn't rape the child, didn't decapitate the child, didn't gloat over the death of the child, didn't do anything that Hamas and the Gazans did. It was one man who was mentally ill doing something grossly immoral and stupid. There is no moral equivalency of an individual being deranged and doing a bad thing and the government of a large group of people perpetrating what we witnessed in Israe, and for the President of United States to draw that moral equivalency says that he in fact is the enemy. In the same speech, he said that, just as we must fight anti-Semitism, we must fight islamophobia. That's one of the most reprehensible and inappropriate things he could say. First, I will guarantee that those people with the courage, compassion, and intellect to expose and condemn Islam are not afraid of it. The people who say no Islamophobia are the people who are Islamophobes; they are

afraid of it; the exact opposite of what he said is true. If you are sane, you would be disgusted by Islam, and we'll talk about Islam more in this program.

9:15 The second point I wanted to make is that there's this uproar on behalf of a people called "Palestinians" and their right to have independent rule in a place called "Palestine" and this notion that Israelis are somehow a colonial oppressor occupying Palestine that must be free. You have Progressive Jews, which means they're grossly immoral, ignorant, and irrational, marching, saying free Palestine. So, I want to make this absolutely clear: there is no Palestine; there has never been a Palestine. There is no such thing as a Palestinian. The closest thing ever to a place called Palestine and a people called Palestinians were the Philistines. They did not have a country; they did not have a written language; they did not have any coinage and didn't leave anything behind to distinguish them in any way. They would be utterly unknown to the world if not for their horrible terrorist interactions with God's people, Yisra'el. If God's testimony is true, and it is, then the Philistines were invaders, sea peoples from Crete, not Arabs, who were butcherous, villainous, grossly inappropriate, foulmouthed, and wholly militant. Like Hamas, all they cared about was war. They were bludgeoned because of their behavior against Israel by Dowd / David and before that time by the Egyptians. Thutmose III, the pharaoh of the Exodus, is most famous for his battle against the Philistines in Gaza. He nearly destroyed them, and they clawed back to some power, and then they triumphed over King Saul. They cut his head off and paraded it through the streets. After that, with Yahowah's backing, Dowd silenced them to the point that they were a quivering wreck of what they once were.

12:15 But that was not the end of the story. Not only did very few of them survive Dowd, but those that did were attacked by the Assyrians and then the Babylonians and the very final remnant of them was wiped out by Alexander the Great as he was headed down to Egypt. There are none of them. The last of them was slaughtered. It was a genuine genocide before the term even existed.

12:50 These Philistines were different than ordinary people because the Greeks built their empire on slaves. A city like Athens had 90% enslaved people. Assyrians were as good at enslaving people as anybody in history. Babylonians were famous for enslaving people; the Egyptians particularly were famous for enslaving people; look what they did to the Yisra'elites. And yet, there isn't any evidence that the Philistines were enslaved because they were so incompatible with redeeming qualities that it was better to kill them than try to enslave them. So, there is not a single survivor of the ancient Philistines. If some Philistine out there found and mated with another Philistine and continued to mate in the same family and didn't have their genes

destroy them for incest, they were Cretans. Yahowah's story tells us that they came from Crete. Interestingly, in the very crude graves they have found in Gaza when digging, the DNA of the Philistines says that they're from Crete.

14:27 So, the point is if Yahowah's story is true, and it is because it's constantly historically affirmed, like, for example, the DNA of the ancient Philistines, then the Philistines were from Crete, and they no longer exist. But that's the only place we know their name. Apart from the Towrah, Prophets, and Psalms, their name is completely unknown, and if Yahowah's story isn't true, then these people never existed. So, the only reason that this name of this ancient peoples is even known is because of one of the greatest assholes of all time – Hadrian. Hadrian lured the Yisra'elites, particularly Yahuwdym, out of Egypt and other places where they had fled after the first two Roman invasions.

15:25 The first Roman invasion of about 66 BCE was part of those skirmishes between Julius Caesar and Pompei. Pompei was the one that ended up in Israel because the Maccabean legacy in Israel is consistent with the Israeli behavior throughout time, which is infighting between Jews for who was going to be empowered when the most lucrative job was to be Chief Priest. Being a Lowy no longer mattered; it was who was the most vicious. So, in the battle between brothers, both of which had Greek names even though they were Jews, Hasmonians, one of them brought a neighboring tribe into Judea to kick the other Jews' butts every way from Sunday, and it upset the Romans, so the Romans came in to suppress them. That was the first Roman occupation of Judea brought in because of Israel's religiosity, a direct derivative of the Maccabean period and the Hasmonians.

17:00 Then, when we get to the third Roman occupation, Hadrian lures the Jews back into Judea, saying, "Hey, we're going to have this wonderful rebuilding of Judea and particularly of the Temple that Titus, because he got a little rambunctious, tore down." As soon as the Jews responded, he said, "I was just kidding about that," massacred them and razed Jerusalem. Hadrian was such a jerk when, at the end of the period, he crucified tens of thousands of Jews and starved many to death. The Romans's view of how you surrounded and besieged a city was a thousand times worse than anything the Jews are doing in response to the massacre that the Gazans perpetrated on them. At the end of the siege, Hadrian, being the jerk he was, said, "All right. It's been the province of Judea for, I guess, since before Dowd, so that was a thousand years ago. So, we understand this is the Province of Judea, the Kingdom of Judea, and it's even been for us all the time that Rome has occupied it.

It's been the Province of Judea, but we're not going to call it that anymore. We understand that once upon a time, a long time ago, the Jews had an enemy called the Philistines." Now, Hadrian knew this only because Josephus, in the previous assault, had turned traitor. Josephus, another example of a religious Jew, turned madman against his people and wrote the history of the Jews in Latin. As a result, Hadrian was aware that these people called the Philistines had their way with Saul in the early days, a thousand-year crisis. "We're going to rename the place Philistia. And because there's this love of all things Roman because of the Roman Catholic Church and the affinity of Latin and scholarship, their academic community continued to refer to Judea by this name that was meant just to degrade God's people, Philistines.

1948: DEE: The Romans renamed a lot of different cities; it wasn't just that one. This is a well-known thing they did.

19:54 YADA: Right. So, that's the history of the place, and no one in the region referred to themselves as a "Palestinian" or the place called "Palestine." Nobody there did. It wasn't used until the time of the beginning of the British mandate, and the only reason the Brits were there is that in World War I, of all things, the Brits bribed the Saudis to work with the Wahhab clerics to wage war on Turkey which at the time controlled Mecca. And they did riding their camels and swinging their sabers. So, the Brits decided we'll reward them. So when areas were liberated of the Ottoman Turks, they went in and took over what was called, because the Brits loved the sound of it, they hated Jews, they've always hated Jews, so they went with Hadrian's misnomer, and it was mandated Palestine.

21:20 At the same time, the Brits had agreed with a fellow named Kais / Chaim Weizmann, who saved the British Empire. He invented synthetic rubber and smokeless gunpowder. Because the Brits did not have access to rubber and couldn't make enough tires for the war machine in the war, Weizmann came to the rescue and invented it. The Germans were outdueling them because of smokeless gunpowder; he could also invent that. So, Chaim Weizmann said at the end of the war, when the Brits brought him in and said you saved the British Empire, what do you want? He said, "Not much. You've got a little strip of land out here nobody wants. It's essentially uninhabited. I'd like it for my people." It was supposed to be Transjordan, which means both sides of the Jordan River, which means it was about

five times bigger than current Israel, including what's called the "West Bank" in Gaza going well into Jordan. Well, the Muslims had a conniption fit.

22:26 This was when black ooze was being discovered under those fiefdoms, so the Brits and the Americans went in and sliced up countries. The Brits would get Saudi Arabia or Iran, and the Americans would get the other one; they just carved up the land and said this one's ours, this one's yours, and we'll bribe the local Chieftain. It didn't work well. So, those countries that were now huge sources of revenue for the elitists in the United States, Britain, and France held sway. Who gives a crap about those Jews anyway? We're going to renege on the deal (that's something the Brits are good at), and they decided no, we're not going to give the mandate to the Jews because our money is with these Arab Warlords. So, what happened?

23:38 Hitler rose to power, anti-Semitism is all over Europe, Hitler decides he's going to blame everything on the Jews, and the Jews have no place to go because of what the Brits did. That's the truth of the matter. So, there were 6 million of them killed in the Holocaust and at the end the United Nations, which came out of the failed League of Nations, says okay we should at least give them a country and they give them this tiny fraction of what they were entitled to. The Jews were desperate they accepted the deal. The Arabs said no we're not going to accept that, and they met them with guns.

24:24 There's this myth now among Progressive Jews in America that this land was heavily occupied by this indigenous people and the Jews threw them out and now they're poor little refugees and the Israelis are occupying their land. That is absolutely not true. When Israel went into the land, they didn't have a common language, they had no coinage, they didn't have a military, they didn't have any ability to defend themselves; they had nothing. They just came out of the Holocaust with the Europeans stealing everything that belonged to them. When they arrived their first response was anybody that's here you are welcome to be part of this great experiment with us. Be fellow citizens and we will share everything with you. Well, it was the Muslims that caused the refugees. The League of Nations told the Muslims living there get out. We want you out now so that we can destroy Jews. Final Solution. We're going to annihilate all of them, get out of our way. There was no such thing as a Palestinian at the time but the Arabs living there left at the orders of

the Arab League so that Muslims could wipe out Jews at the end. Well, it didn't turn out that way.

25:58 It is interesting, however, that the United States spilled its sons' and daughters' blood defending Saudi Arabia and Kuwait from Saddam Hussein. We sent our military in; we sent our own boys and girls in to defend Saudi Arabia and Kuwait from Saddam Hussein. You think that America sent its military in to defend Israel against the onslaught of Muslims? No. America didn't fire a shot on behalf of Israel in The Six Day War or in the Yom Kippur War when Israel is almost destroyed. Even now Americans aren't there to fire a shot and protect Israel. They're a Trojan Horse. So, at this point there still is no such thing as a Palestinian. No one's even using the term that \_\_\_ you got some Egyptians. At the time Gaza was an open prison. The UN and everybody that's now evaluating what's going on in Gaza, which is a possession of Egypt, it's a living hellhole; total poverty and it is part of Egypt. What's called the "West Bank" now is part of Jordan, a hellish place to live, lots of poverty. That's the reality of it. Jews came in they told the indigenous people stay. What did they do? They went to war against them, tried to kill them. Now what that means is that you can't impose a deal that you rejected. If you and your neighbor shake hands on a deal to buy a piece of property and the next day you said no, I'm not I'm not going to honor that deal and oh by the way I've come over with guns and am going to start to kill your family. When you lose you can't go back and say well woe is me and damned are you. I want that original deal \_\_ rejected and tried to kill you. No. It doesn't work that way, not in the real world. So, here we are again, and we still don't have any Palestinians, we still don't have a place called Palestine, and we've got the Muslims becoming refugees because of the Arab League and because they wanted to renounce UN 242 and the creation of a Jewish State. In 1948 the Jews kicked their bottom all over town. They prevailed but they didn't steal land. They bought it. They would still buy it.

28:55 Then you go to 1967 and the Six Day War. All of the collective Muslim nations around Israel plot and decide okay so we didn't win in 1948, it's a new day, we got some big militaries, that's a tiny little country, they don't have any support, let's go annihilate them now (that was a day that Israel's intelligence wasn't as sleepy as it is today). Massive armies on their borders ready to pounce and Israel says not so fast and by the end of the Sixth Day War Israel could have, well it took all of the

Sinai. It was on the cusp of taking Cairo and would have taken it had the United States not stopped them. It would have taken Damascus if the United States had not stopped them, had unified Israel, the United States made them give it back to whom? To the people that were trying to kill them. That failed.

30:08 1973 and we have the Yom Kippur War, the same time of year as the October 7th surprise attack combined against Egypt, Syria, these nations, and they so outnumbered Israel. They had better air forces, tank battalions, vastly more troops. Israel looked like it was doomed. The United States, of course, does not come to Israel's aid, couldn't be bothered with Israel's destruction. But Israel survived, won that war and then made some of the worst decisions in the world which is that it gave control of its own Temple Mount to the very nations that were trying to destroy it. There still is no mention really of a "Palestinian." The whole myth of the Palestinian emerged with Yasser Arafat and the creation of the PLO. The PLO is the organization that went and killed the Jewish athletes at the Munich Olympic games. The PLO is a terrorist organization. The PLO is responsible for the killing of Robert Kennedy in the United States, John F. Kennedy's brother, and the PLO which is FATA today, came up with the idea that if we call ourselves "Palestinians" and we draw a map that says this is "Palestine" then we can create the myth that these dastardly Jews are occupying our land when in fact the only document that even legitimizes the fact that once upon a time a thousand and years ago there were these people known as the Philistines but they no longer exist is Yahowah's testimony and Yahowah clearly says I gave this land to My people and they are Jews.

32:13 But the world is ignorant and has been for a long time. Lack of knowledge is so pervasive the vast overwhelming percentage of people worldwide do not know that there there's no such thing as a place called Palestine or a people called Palestinians, and you have to blame Israel, not Yasser Arafat the ugly gay terrorist who died of AIDS. Why? Because Israel uses the term, Israeli politicians, Israeli religious leaders, the Israeli newspapers and media all use the term. If I had any say over what could and should not be done in Israel, the first thing I would do is make it illegal for any Israeli to use the term Palestinian because it is a lie. If you can't present the truth, if you don't have a valid argument, don't make one. The notion of a Palestine and Palestinian is a complete and utter lie. The notion that Jews stole their land, the idea that they pushed these poor Palestinians out of their country are

lies. You can't prevail if you're going to join the liars which Israel has done. It's totally and completely unacceptable.

33:51 All right. Let's go to the next debilitating myth for Israel that the Temple Mount is the third holiest site of the Islamic religion. Let's begin by making this perfectly clear. The Quran is the worst book ever written. It is a jumbled mess of plagiarism and utter and complete stupidity mixed in with grotesque immorality. There is nothing redeeming in it. It is a complete and utter fraud and a piece of trash. Muhammad was a pedophile, a rapist, a womanizer, a mass murderer, a terrorist; he was among the worst people who ever lived. One thing he was not is a prophet. Not a single prophecy in the entirety of the Quran, which is pretty amazing since about half the Quran is bastardized Talmud stories that Muhammad bought from rabbis, but he didn't buy a single prophecy. Why would you call that jerk, that pedophile, a prophet when he doesn't have a single prophecy? Why? Because you want to make it sound like he's the same as Moseh, who was a prophet. Pure deception.

35:17 Muhammad was in Petra, not Mecca. Everything that's in the Quran that describes the topography, the people, the nature and what was going on describes Petra. All of the initial Qiblas and all the initial Mosques point to Petra; it's clearly in Petra. Mecca is in Kaaba, which is just a rock pile, was moved from Petra when Petra was destroyed in the earthquakes and at war to what is Mecca. It's a complete and utter fraud. So, Muhammad's in Petra and he is a covetous asshole. Of the early Quran surahs, those revealed before he benefited from rabbis selling him Talmud stories, are a mix of either plagiarized Hanif poetry (the Hanif are Jews that lived in Yemen) or the ongoing rant where the people that knew Muhammad best, the Beny HaShem tribe said, "You're just a liar, a scumbag. Nothing of this is true. You've stolen all your material; we know where you got it. You're not speaking for God; you're speaking for yourself. What you're trying to do is satiate your own lust for sex, power and money." That was true.

36:58 Another part of that that's also true is that he was from the Beny HaShem tribe. Have you ever heard the term HaShem before? How about Beny HaShem? What does it mean? It means "Son of the Name." What's the name? Yahowah. Yahuwd. That's the name. Muhammad was a Jew from the Beny HaShem tribe. So, anyway, he is accused by those that knew him best, far better than anybody today, of being a

self-serving pervert and huge number of, maybe it's a hundred times where the Beny HaShem neighbors are all saying Muhammad, none of this is true. We know it. We know where you got your material. You're a complete fraud and then Muhammad has his god, who was not Allah at this point, but a nameless Lord say oh no. Muhammad's our guy. He's telling you the truth. Believe Muhammad. We're going to burn the britches of those guys that are mocking him, and on and on they went. They want you to believe that the Pen wrote the Quran before the universe was created. So, before there was matter there was a book, and it was written by the Pen and it focused on the book of books of all time and yet focuses on this never-ending rant between nomads. So, Muhammad says all right all right you're offering me this deal. The deal I want is I get the prettiest woman, I get to be king for a day, and you give me all this money and I will worship the gods of the Kaaba, al-Lāt, Manāt, and al-'Uzzā, who are the lead goddesses of the Kaaba. The Beny Hashem say all right. We'll do that. That sounds like a fair deal. They did that, Muhammad then adds a Quran recital that says you know al-Lāt, Manāt, and al-'Uzzā are all goddesses. Let's just all get along. Where are the babes, where's the money? Well, suddenly this guy was 10 years into his mission and has four gods, none of which by the way at that time were Allah. So, his closest friend and companion who had given him his six-year-old daughter as a toy said, "I don't think I'm buying this, Muhammad." So, Muhammad comes out with the Satanic Verses. Satan put that on my tongue. All of Allah's messengers speak for Satan. That's pretty swell of him. So, they mocked him to the point where he needed to leave town, but he needed an alibi, a diversion. His diversion is in the middle of the night while he's engaged in pedophilia (he's a 53-year old man in bed with a six-year-old girl), a winged ass comes in out of the sky, picks him up from his bed near the six-year-old child and flies him off to Jerusalem where he goes into the Temple to meet with all the Jewish big shots of the history of Yisra'el, none of which of course are alive and the Temple doesn't exist, but he's as dumb as the stone he promoted to a god. So, he tells this whole story about how he went into the Temple to meet with all the Jewish Big Shots having ridden there on a winged ass | *'el Baraq*. When he gets there, the first thing he does is leap up to Heaven. That's why the Dome of the Hoofie Print is there; it commemorates the hoofie print of the winged ass. The first stop to the Islamic Heaven is Hell. You only can get to Heaven first of all through Jerusalem which is a real problem for Mecca and the Kaaba. Muhammad didn't realize that he had undermined his entire story by saying he had to go to Jerusalem to get to the Islamic

heaven and Allah, but none less even to get there he first had to go through the Islamic hell that was not down but up on the way to the Islamic heaven. When he got there, he found all the inhabitants were naked women who were being hung by meat hooks through their breasts. So, Muhammad said why are all these women here with meat hooks through the breast? He didn't say get these women down. What in the world's going on here? This is wrong. No. He didn't say any of that. He just said why are they here. The answer was that they weren't duly appreciative of their husbands who had beaten them.

42:15 This is the story of the night's journey, of a pedophile admitting that he spoke on behalf of Satan, dreams that he had gone on a wild ass to a non-existent temple to fly through hell in Jerusalem to meet with Allah. The story is so despicable, so condemning of the credibility of the Quran and Islam. Rather than placate Muslims and allow those two eyesores, toxins on the Temple Mount, to stand scarring the skyline of Jerusalem, in the heart of God's city, the City of Dowd, why doesn't somebody tell the truth? The truth is so condemning of the Quran, of Allah, of Muhammad, of Islam that there'd be no way to maintain that we need to fight and kill Jews to protect Al-Aqṣā. Why? Because any mention of it is instantly a laughingstock in the world because you took the time to tell the truth.

43:27 Why isn't there one journalist the world over who knows that story? It's pertinent. The reason that the mosque and the Dome of the Rock are there now is because they are trophies, just like the Jewish women that the Muslims raped, butchered, and hauled back into Gaza are trophies to thousands of cheering women and children. The Dome of the Rock and Al-Aqṣā Mosque are decadent trophies to pedophilia and to speaking on behalf of Satan that need to be torn down. This is the story and the truth. They need to be razed, and if you're not going to do it, Yahowah will. And if you don't do it, when Yahowah comes back in ten years on October 2nd at 6:22 p.m. at sunset in Jerusalem on Yowm Kipurym in year 6000 Yah, 2033, He will. If you're not among those who do it, you aren't going to have a very pleasant experience when Yahowah returns with Dowd, who is not only the Passover Lamb but the Messiah and Son of God.

44:57 The truth is that Islam and its Quran are the most despicable, easily disproved religion in the history of the world. Muhammad was a mass murderer. Islam's first

act in the Islamic era is the Battle of Badr, where Muhammad goes after a caravan of his own people who were the first victims of Islam, Arabs. He tortures his victims, steals their property (and gloats about it), and takes away slaves of his own people. The Quran even says it's lawful to steal and to kill. Shortly after that, the rabbis stupidly and selfishly recited Talmud stories to Muhammad, who was desperate for new material. He'd run out of Hannah poetry. He wasn't that inventive and was illiterate. He had a real problem because he went out on a limb and said I'm having all these Quranic revelations, this clanging bell in my head. He needed material that he couldn't come up with, so he paid rabbis to read Talmud stories. Interestingly, the money he paid them was loans from the Jewish community. The first Muslims waltzed into Yathrib, which was 75% Jewish and had no means to support themselves. They were impoverished, and they weren't willing to work. All they knew was being raiders, so the Jews loaned them money to survive and provided housing for them.

46:56 Then, Muhammad bought from the Jews Babylonian Talmud readings that had only been codified about a hundred years previously. As usual, Muhammad twisted the Talmud stories to suit his lust for sex, power, and money. He claimed they were from Allah, and the rabbis laughed their asses off. Wait a minute. We read those things to you. Those aren't from Allah. They're from our Talmud, and you messed up the stories. The way you told the stories makes absolutely no sense. They started mocking him, and Muhammad said wait a minute, you can't do that. If you mock him and prove that the Quran is a fraud, then Muhammad goes crashing down. So, he dealt with them like the psychopaths deal with anyone who challenges them, by cutting off every Jewish man's head, enslaving the children and playing a game of lots to decide who got to rape the women. Are you sufficiently disgusted at this point? That's when the Quran started becoming antisemitic and justifying Muhammad doing the unjustifiable. It's like the world today responding to what happened on October 7th, with Muslims behaving like Muhammad did, raping women, enslaving children, and murdering men.

48:39 They justify it with a pack of lies, just like Muhammad did in the Quran. Yet, 99.9% of Israelis are ignorant of what I've just shared. The lies of Muhammad were exceedingly easy to demonstrate and to document in *Prophet of Doom* and its rewrite, *God Damn Religion*. It is the best documented, most comprehensive,

contextual presentation of the Quran using the biography of Muhammad by Ishaq, the history of Islam's formation by Tabari, and the oldest and most revered Islamic sources of the sunnah to put the Quran in chronological order in the context of Muhammad's life. It is irrefutable. Everything I've said is as factual and credible as the Islamic sources allow. The only way to refute it is to say the Islamic sources aren't credible. If you say the Islamic sources aren't credible, Islam's not reasonable. If the Islamic sources are credible, Islam's not believable because Muhammad was a mass murdering terrorist, pedophile, and rapist. How's that for \_\_\_? And yet with these people terrorizing them, cutting off their children's heads, not only raping their women but mutilating their genitals and parading them through Gaza as trophies with thousands of women and children applauding, Jews haven't taken the time to learn the truth about what the inspiration is in this behavior.

50:39 Then, the President of the United States dares to say, "Don't you bring Islam into this." It's all about Islam and the irresponsibility of the Jewish people to do what's right; that's all it has ever been. You are your worst enemy because you're unwilling and unable to tell the truth. This is very similar to many videos of the Holocaust. Other than the uprising in the Warsaw Ghetto, there aren't many stories of Jews condemning the Gestapo, the Nazis, and all the anti-Semitism throughout Europe, just hoping to be accepted, hoping to survive and prove worthy so that we can all get along. These Muslims declared war on you, decapitated your children, enslaved them, raped your women, killed your men, and have been doing so for 1,400 years. And you want to get along with them, give them a state carved out of your own territory, give them humanitarian aid when they've demonstrated they haven't changed at all and are still this murderous and inhuman? No! Hamas gave the 2,500 Islamic Jihadist maps that told them where the children and old people were, (the easiest victims), and said to slaughter them. And in case they might get weary of cutting off heads, burning people alive, mass murder, and shooting RPGs through girls at a music festival, they doped them up with the Muslim version of crack, which is an amphetamine that causes them not to tire, not to have any judgment, and to be euphoric about doing the most disgusting things. They had pills in their pockets and the effect of this in their systems. Yet, the world can't seem to condemn it.

53:40 The Gazan community voted overwhelmingly in favor of Hamas. Sixty percent of residents think Hamas is swell. There are no dissidents, and nobody in Gaza says, " Wait a minute, Islam is wrong. Your behavior is terrible, and it's taken everything that could have been good for our people regarding the possibility of jobs and infrastructure, making our electricity, desalinizing our water, and growing our food. But no. You take 100% of the aid from the world to make rockets, dig tunnels, and buy weapons to kill Jews, to blame the Jews for occupying; wait a minute, there are no Jews in Gaza. The whole thing is a mess, and Jews are unwilling to express the truth.

54:47 Then, in the United States, Progressive Jews are wallowing all over themselves with "free Palestine," Palestinian flags, and "Israel's bad." Are you total morons? Have you completely lost any semblance of morality? Is your mind a complete and utter waste? No character whatsoever? What the hell is wrong with you?

55:21 Then you have Hamas. They blew up a hospital parking lot by shooting a rocket from a cemetery behind it. Islam dumbs everybody down. For Israel to be taken by surprise by people this stupid says how far God's people have fallen from what they once were. Rather than the rocket going into Israel, it blew up the small hospital parking lot, and some cars caught fire. It looks like it may have hit an ammunition depot there, too, causing more of the cars to get singed, which tells you a lot. What is Hamas doing shooting rockets from behind a hospital unless they want Israel to bomb the hospital? Why do they have munitions in the parking lot of a hospital unless they're looking for casualties? Anyway, they misfire the rocket.

56:40 Israel has a telephone conversation between the Mudslimes that says yes, it was us. We shot the rocket. We were in the Cemetery, and their voice said, "Cemetery right by the hospital. Yeah right. We're in that Cemetery, went into the parking lot, blew up some cars, it was us." Israel released it to the media, and then they showed where the rocket had launched from. They showed we didn't have anybody anywhere close to the area. They said it landed in the parking lot, didn't even damage the hospital, and yet everybody of any consequence the world over in the media, the BBC, the *Wall Street Journal*, National Public Radio, Reuters, Associated Press, all of them front page stories: "Israel blows up a Gaza hospital.

Act of genocide kills 500 innocent Palestinians. Women and children burned alive." As a result, tens of thousands of Muslims worldwide go into riot mode, hunting for Jews to kill, even in Paris, London, and Berlin. They ran with the story based upon what they were told by an organization that was raised Islamic based on a lie that was ordered to lie.

58:20 Early in *Goddamn Religion* I tell the whole story about how Muhammad hunted down and killed every journalist in his community. If you were a journalist in his community, he hunted you down and deliberately killed you and told his goons how to lie to be able to carry out the assassination. And then Muhammad, in the most important moment of his life, lies and says, "Hey. If I say one thing, then that's my vow, but if I find something else is more expedient later, I renounce my vow and do the other thing." So, Islam is a religion based on a lie that advocates lying, and the Press bought it. So, Israel had a press conference with the IDF.

59:18 The IDF has its strengths and weaknesses. One of its strengths is they're really careful when denouncing something that's attributed to them that they didn't do. They never color outside the lines. They're super careful. And he says, "No. It wasn't us. What happened here is, here's the cemetery, here's where the rocket hit the hospital. The casualties are grossly exaggerated. There were probably 10 or 20 casualties in and around the parking lot. There weren't 557 like they said. We had no assets in the area, and we even have a voice recording proving it. We can show you the flight path of the rocket." Do you know what the BBC and all these organizations, even Seymour Hersh, the guy that I had some respect for, said? "The world is in an uproar over the destruction of a hospital as Israel is razing Gaza to the ground and creating mass murder and genocide," and condemned Israel for doing it even after it was proven that it was Hamas. At that press conference, I would have looked at everybody there, the *Wall Street Journal*, BBC, Reuters, all of them, and said you are now an enemy combatant. You ran with a story that you should have known was untrue that you didn't bother to fact check, that put as headlines on the top of your papers, and it caused Muslims around the world to riot and seek to kill Jews. You're not independent reporters anymore. You are enemy combatants. So, my suggestion is that you get out of here, and you stop doing this before we treat you like an enemy combatant.

1:01:27 Astonishingly, the primarily Progressive media (There are some tiny numbers of non-progressive media like the idiots at Fox, so there are some idiots on the other side) have decided to go against a democracy where women have rights, where there is the rule of law, where education is highly valued, and where the people are extraordinarily mobile and free. They will condemn those people and side with those whose religion demeans women more than any religion in the history of humankind, the religion where women have no rights, are forced to wear tents, and 250 little girls face sexual mutilation, that grew based upon terrorism and the slave trade, that was responsible for rounding up Africans and transporting them to the New World as slaves. A fascist dictatorship exists in every country under their control. They've decided to rally around them and have the hijab-wearing woman protest against Israel on behalf of a religion that advocates everything they oppose: Black Lives Matter all over it. Antisemitic ... What in the hell is wrong with these people? They're indoctrinated worse than any religious faith, and they don't seem to be able to see it.

1:03:36 I love this woman I had dinner with the other night. She is the patron saint of the island I live on, but her husband is a (Rastafarian)? and an antisemite. In the middle of dinner, he was telling a story. My Jewish wife is sitting right next to me (I'm Jewish by association, so if you attack Jews, you're going to get the gloves off). He said, "You know the reason I hate Netanyahu, who is a terrorist, is that if a Palestinian..." I said, "Stop right there. There's no such thing as a Palestinian." "Well, if a Palestinian..." I said, "There's no such thing as a Palestinian." "Okay. If someone who is not Jewish does any little thing that he goes and destroys their houses," (that is so ridiculous) "that is a terrorist act." I said, "Do you realize that the only people whose houses they razed are the parents of, or the family of, or the home of the actual terrorist who has killed and maimed Jews? To get that, you have to be convicted of killing and maiming Jews, and do you realize the reason they came up with that is because of Pay for Slay, where Fatah, the PLO, rewards murderers of Jews to this day by taking the money the European Union gives them and lavishing large rewards on the families and on the terrorists themselves who kill Jews? And this was Israel's way of saying if you're going to do that, then we can at least take away their home." And when I said that, it wouldn't even register. So, Netanyahu is a terrorist. I'm not a Netanyahu fan, but one thing he's not is a terrorist. And this is a moral response.

1:05:36 For the women who raised children to be terrorists who decapitated little Jewish boys and girls, I don't have any sympathy for their houses being destroyed; they did this. And when the Jews came back beaten, bloodied, and raped, they celebrated. They did this thing; they deserve it. When the world says Israel's perpetrating genocide, have you lost your mind? Genocide happened in the Holocaust, where you try to annihilate a people. Thousands of Gazans killed because they won't leave the side of their terrorist sons amongst two million is the furthest thing possible from genocide, and the only reason they're being killed is because their sons went into Israel and committed the worst terrorist act of the last thousand years. Then, when they came back, they celebrated it. And when Israel said move out of the way because Hamas are a bunch of little cowards, they think it's fun to have civilians killed while they hide underneath them in their little tunnels like rats. They didn't leave, so what's Israel to do? Why are they dying? Not because of Israel. They brought this upon themselves.

1:07:28 So, Israel, I'm trying to tell you to wake up and understand the truth about Islam. This rewrite, *God Damn Religion*, differs considerably from the first version; many things changed. One is it's called *God Damn Religion* because when I wrote it 22 years ago, I was unaware that Christianity and its New Testament was a complete fraud. I didn't know the depths of the fraud perpetrated in the Talmud, the complicity of rabbis in Israel's destruction, or how God's number one theme throughout the Towrah and Prophets is God's disgust with Israel's propensity to be religious. I didn't know those things back then. So, when the Quran made claims, rather than just saying this is not true because it claims that Allah revealed the gospels, I'm here to tell you the gospels are a complete fraud. So, if Allah claims to have revealed them, then perfect. Then, he is exactly how Paul has described him. Paul said he was demon-possessed and is the principal author of the Christian New Testament. Thank you for the confession. So, I've learned a lot in that regard and needed to make those corrections.

1:08:50 The second thing is that *Prophet of Doom* was written right after 911 to awaken Americans to the actual motivation for that terrorist suicide bombing; therefore, it was appropriate to be written the way it was written. *God Damn Religion*, the comprehensive rewrite, is tremendously different. It was written because what happened on October 7, 2023, profoundly changed the lives of those

who love Israel and Jews. We know that October 7th of 2023 was a dress rehearsal for the big one that's coming next, and the only way that any Jew will survive it is to come to know Yahowah and become a part of His Covenant. I am rewriting the book entirely to focus it on a single group of people, the remnant of Israel who are open-minded sufficiently to consider the evidence that Yahowah and Dowd | David have provided such that you come home and return to the God of 'Abraham, Yitschaq and Ya'aqob. So, it's being rewritten expressly for the non-political, non-religious Jews in the aftermath of October 7th, 2023, and before the ultimate destructive battle on Israel, which is a hundredfold of what happened on October 7th. It is called *God Damn Religion*. The first five chapters will be up on the yadayah.com site.

1:10:41 *Yada'* means "to know" means to know. Yah is the familiar form of Yahowah's name. You'll come to find the 30 books that I have written on behalf of Yisra'el and Yahuwdym. Gowym, you are more than welcome to read them. You could be part of the same Covenant. There's one Towrah, one Covenant, one set of Mow'ed Miqra'ey to follow, one Savior whose name is Dowd | David. He is the Firstborn of God, the Messiah, the King of Kings, and he is the one returning. You can be part of this, survive this next attack, and be a voice of reason calling your loved ones home. That's why it was written. It'll be on the far-right side of the bookshelf shortly. David, our Web Master, has done a marvelous job of working with Jackie, our Publicist, to present it. Both Molly and Mike have done a marvelous job of editing it. I'm a tough writer to edit because words are very important to me, and I write them based on how the Spirit has led me to understand Yah's prophetic testimony, and I don't pull any punches. But they have nonetheless gotten this material ready, and it will soon be published on the yadayah.com site. Within that there is a revised presentation called "At War with Religion." I would encourage you to read the entire thing, but particularly that. It's time to shed your ignorance, Israel, about the myth of Palestinians, the myth of a place called "Palestine," the myth of your Temple Mount being holy to Muslims, the myth that you can negotiate with them, that you can live with them, that appeasing them is a good thing. You are at war with religion, and it's not just Islam.

1:13:09 You know, for the better part of 2,000 years, the religion that was so deadly to Jews was Christianity, created by Jews, allowed by Jews. Christianity was not only conceived by Peter and Paul, both of whom were Jewish, but it was allowed by

the rabbis because what happened in 33 CE, year 4000 Yah, was so voluminously and precisely predicted not only by Dowd | David in the 22nd and 88th Mizmowrs and in Yasha'yah | Isaiah 53, but even in the testimony of Moseh. What happened then was detailed. And even when Gabry'el | the Most Courageous and Competent Man of God | Dowd spoke to Daniel and said, "This is the exact day when I, as the Messiah, am going to be cut down but not for myself. My own people will do this to me, and this will be the consequence." So, the exact day that he would enter Jerusalem, Dowd | David, who wrote about his crucifixion in first person as the Passover Lamb, fulfillment of Matsah, it's all there. It's copiously detailed, prophetic of exactly what Dowd had decided to do. And you say, wait a minute. Dowd, the king, died 3,000 years ago. No. Yeah, Dowd was king of United Israel 3,000 years ago; he was the greatest of your prophets in terms of the breadth of prophecies he shared through the Psalms and Proverbs. Dowd specifically said that he had told God that he wanted to serve not only as the Zarowa' | the Sacrificial Lamb, but he wanted to fulfill Matsah, which was the really tough one where he carried the religious guilt of every Covenant member into She'owl and deposited it there so it could never be seen again thereby perfecting us. Dowd explained to Yahowah, and it's obvious when you read the Mizmowr | Psalms why he wanted to serve in that role and would suffer those two days for us to live in eternity together. And then these detailed examples of how he would do it, precisely the date that he would do it, what the benefit would be, and then an enormous amount of prophecies predicting that the establishment would deny it.

Break in stream.

1:16:31 \_\_\_ the sacrificial lamb which God clearly states. The denial of all of this is what gave Christianity the ability to foist a false Messiah on the world in this mythical creature named "Jesus Christ." Then, to fight that, when it finally started to take root and grow as a lie because it was wrapped up in Odysseus and Dionysian clothing, so it had appeal to a broader cross-section of people, Akiba came up with a false Messiah of his own. You got a false Messiah, I got a false Messiah, let's let our false Messiahs duel it out. It's because it's of Akiba's false Messiah that Hadrian came to town, and we all know what happened as a result of that. Akiba was responsible for the diaspora, for the destruction of Israel, of Judea anyway.

1:17:27 So you brought Christianity into the world because you didn't have the knowledge, the courage, or the desire to tell the truth about that religion, the same way as now we're dealing with Islam today. If you don't have enough people who are willing to stand up and tell the truth or just people to take the time to learn it and share it with others, bad things happen; that's how Christianity took root and grew, and it would torment you for the next 2,000 years. Without the Roman Catholic Church, there is no diaspora, no pogroms, no abusing and demonizing Jews throughout Europe for the better part of 2,000 years, no Holocaust without the rabbis failing the Jewish people relative to Dowd serving as the Passover Lamb, or this myth that there's a nameless Messiah that's coming to rescue you. No. The Messiah's got a name – his name is Dowd | David. Yahowah is very clear that Dowd | David is coming back for a third existence. The King of the universe is well known, and yet they will lie to you about that. They lied to you about everything.

1:18:52 All three of the Jewish religions, Christianity, Islam, and Judaism, are nothing but a pile of lies with rabbis responsible for all of them. Yes, rabbis are responsible for Islam. I just explained how that occurred. Rabbis are absolutely responsible for Christianity. In fact, Paul was the first to use the term. And all this time, very few Jews have been willing to take a stand and tell the truth. Here I am, a Gowy. I've received thousands of death threats, I've written 30 books, I've devoted 10 to 14 hours a day for 22 years to awaken you, and you can't even take the time to read what Yahowah said, what I've learned about these false religions and defend yourself and your people? What's wrong with you? Why not? They attack you this brutally, and you don't marshal a defensive of words. Do you think the IDF is going to save you and bomb Gaza to oblivion? Do you have any idea that for every bomb you drop in Gaza, and particularly when you invade Gaza, how that's going to galvanize the world against you? Why not use your words, Israel? Why not tell the truth about the Temple Mount? Why not tell the truth about the myth of the Palestinians? Why not tell the truth about Islam? Why not confront the rabbis for having created all three of these religions that have done you such harm?

1:20:49 A great example is the most important day of the year, according to Yahowah, isn't Passover and most certainly isn't Yowm Kipurym, which is the day you think is the holiest day. No. It's Matsah. You don't even celebrate it. Matsah is the day that Dowd's soul carried the guilt of the Covenant members into She'owl to

perfect us, the day that we are freed of the consequence of having been religious and political. The rabbis don't even celebrate it. They've turned Passover into a seven-day feast to bypass Matsah. Matsah is the seven-day celebration and feast. It is essential. Passover just happens to be the first day of Matsah. This is how they've lied to you.

1:21:39 Then they've turned Yowm Kipurym into Yom Kippur, singular instead of plural. It's a day of affliction and denial when, according to Yahowah, it's the day that He's going to restore the relationship. It's the day of reconciliations. It's a family reunion; they've inverted it and twisted it so badly. I began this mission on your behalf 22 years ago on Taruw'ah. You don't even know what Taruw'ah is because you've replaced it based on the rabbis and a Babylonian holiday called Rosh Hashanah | Head of the Year. I'm sorry, but Head of the Year is Abyb one, seven months earlier. They've done nothing but lie to you. They won't even say Yahowah's name. All through the Jerusalem Talmud, the Babylonian Talmud, all of their Mishna, the Zohar, they won't even say Yahowah's name; they've written His name even out of the Torah. It took a gowy to tell you how to pronounce it and that it was this important, and you can't even learn from it and start using it?

1:22:58 Look what happened with Hezekiah when you had 185,000 Assyrians surrounding Jerusalem ready to do to it like they did every other city in Judea and previously throughout the Northern Kingdom of Israel, hauling the entire Northern Kingdom into slavery and oblivion. Hezekiah found a copy of the Towrah and decided maybe I should read that. What's God's number one criticism of us? We're religious; He hates religion. Let's get rid of all the religious trimmings, and let's actually celebrate Passover, Matsah, and Bikuwrym. And Hezekiah says, "The priests are completely ignorant. They have no clue. There's religious stuff everywhere. I know we have to clean house first. We can't get it done in time. Can we celebrate just a little later?" Yahowah said, "That's fine. It's about what the celebrations represent and your reliance on Me. That's what matters." And they did. And what happened? One hundred eighty-five thousand Assyrians dead.

1:24:12 That'd be like having this major assault that's being planned right now by Iran, where Israel has no defense. Nothing the IDF has is going to do you any good. You can't drop a nuclear bomb, you can't use your jets, you can't use your tanks. It's

going to be exactly like what happened on October 7th except 100-fold worse, and it's just like that with over 100,000 jihadis, and they just all die in their tracks before harming any of you. That's what would happen if you had a Hezekiah awakening. That's what we're trying to do.

1:24:57 The Taruw'ah Harvest is probably six years away. Yahowah says there will be 7,000 people. They could be evenly split. He uses metaphoric language referring to the highest branch on the tree, olives being harvested, and then a lower branch on the tree. The higher branch could be Yahuwdah, and the lower branch could be Yisra'el, with fewer on the upper branch than the lower branch. Still, the upper branch could be Yisra'el and Yahuwdah combined. The lower branch is the gowym who have accepted the Covenant, follow the Towrah, observe and attend the Mow'ed Miqra'ey, and accept Yahowah's provision through Dowd for us to be grafted in and adopted into Yahowah's Family. That is occurring, and that's a guarantee-to-get-out-of-Hell immediately opportunity.

1:26:00 And after that, 'ElYah's coming back, and I'll be joining him. And for the next three years, we're going to be exceedingly blunt - far blunter than I've been tonight ... the consequence of Judaism and why it's poisoned to God's people, why God hates the religiosity of His people. The number one theme throughout the Prophets and the Towrah is God despising the religiosity of His people. Judaism ... but I will tell you the same thing is true with Progressives. They've lost their ever-loving mind, conscience, and sense of right and wrong. They'll all be gone. So, we're trying. We will work to have a family reunion with a quality of individuals that is satisfying to Dowd and Yahowah, to look up to the one that you pierced, Dowd, when he returns on Yowm Kipurym to anoint the Mercy Seat of the Ark of the Covenant and to restore the relationship between that remnant of Yisra'el and Yahowah. That is our mission. We've been on this mission now for 22 years. See how committed we have been.

1:27:30 I'm scolding Yisra'el because it's way too late, way too long for you to continue to be in denial, for you to be lashing at symptoms, for you to be blaming everybody else but yourself for the plight that you're in. Yes, I despise Islam and what Islam did to women, children, and the Jews that I dearly love on October 7th. Still, it happened to a significant degree because there have been too few people in

Israel who've taken a stand to demonstrate that there is no such thing as a "Palestinian," no such thing as "Palestine," that Jews are not occupying their land, that there is nothing of value on that Temple Mount, that Muslims should have no affinity to it, that it's nothing but an embarrassment to them and that the reason we're in this mess is the same reason we got ourselves into a mess immediately after the Exodus when we started making the golden calf and becoming religious. Study the story of the Waters of Marybah so you understand just how contentious you've been with your God and how long this has endured.

1:28:39 If you want to know how God views the religiosity and the political nature of Israel, read the story of 'Elyah and how he opposed the 850 not only the prophets of Lord Baal and Ashera, the Queen of Heaven and the Mother of God but how he opposed the political establishment in Israel and Jezebel and the king and queen of Israel. Understand what he had to say, how condemning he was of the politics and the religion of Israel, and how, as a consequence, everybody that advanced religion in Israel and the political leaders of Israel got put to death. That's how disgusted He is by religion and politics. It's time for you to learn that lesson. God is offering a relationship, not a religion.

1:29:47 Look at what happened in Eden. Do you want to understand where God is, what He's offering us, and where He's taking us when we celebrate the final Sukah? We're being invited back to the Garden of Eden, and in Eden, there were no politics, religion, armies, police, or terrorists. That's what He's offering. So, to be among those who have been invited back, you need to disavow religion and politics.

1:30:16 Listen. Your government is absolute rubbish. First, it can't even form a constitution. You've got this government, this terrible conglomeration of secular and religious where the religious controls who gets to immigrate into Israel, who gets married and who gets divorced, what you can eat, what you can do, your freedoms. They've redefined what it is to be a Jew by Judaism instead of ethnicity. You have a prime minister who was completely asleep at the wheel and who actually diverted IDF forces with two-thirds of the Force guarding the Gaza sector to protect religious Jews who were having a Sukkot party near Huwara to antagonize Muslims and hasn't admitted his failures, whose government exists to bribe the religious parasites that are destroying Israel from within. That's your government. They are some of the

most disgusting people that are part of that cabinet, that's the fact of the matter, so how could you be political?

1:31:57 And if you're on the other side and you're listening to Lapid, who is nothing but a traitor, another moronic Progressive who has destroyed the viability of Israel, and you're your claim that by putting some restraints on the judicial branch which doesn't have a Bill of Rights to constrain them or a Constitution to rule on that you're being deprived of democracy is the most insane response ever. And yet you'll protest and shut down Israel each week to the tune of hundreds of thousands. So, Israel is absolutely in a civil war, just as you were during the period of the Maccabees, the Exodus, during the time of 'Elyah, and of Saul. Even during Dowd's reign, you had God's firstborn son, the Messiah, the greatest man who's ever lived as your king, and you let a coup against him. You've been doing this for a long time. Stop it already! Come to know Yahowah. Stop fighting Him. Stop antagonizing with your religion and politics.

1:33:39 Now, truth be known, as it talks about the Progressives in Tel Aviv, God doesn't care about your sexuality; it's meaningless to Him. Do whatever you want - there is no condemnation of homosexuality; it's completely misrepresented. God says nothing about bisexuality. In fact, God's favorite person in the world was bisexual. He doesn't care! Now, crossdressing where you are a guy pretending to be a girl or a girl pretending to be a guy. He says, "That's pretty weird. Don't do that stuff. Incest - woohoo, don't do that stuff. That's really bad; that messes people up big time. Rape, no, that's really bad, don't do that either. Bestiality and pedophilia are disgusting – don't do that."

1:34:41 We ought to be smart enough to know the basics. There's no letter in the LGBT alphabet soup for pedophilia, incest, or bestiality, although they do have their (furies)? now. God's pretty limited on the things you ought not to do, and for the rest of it, He doesn't care. This idea that you better not have sex before marriage, there's not even a marriage ceremony in the Towrah, so how could that be? God never once accused His people with, "Your problem is you're overly sexual, and I don't like the fact that you've got more than one sexual partner." Everybody that He effectively communicated with had multiple wives. Dowd not only had eight wives, but he also had ten concubines. (I don't think they're officially concubines. It's a

terrible term that's an English corruption of it.) This idea that you forsake all others and “until death you” - no. In fact, in the Towrah, it's “until letter do you part,” and there's no indication that it should just be one, so you can relax. God doesn't care about your sexuality. In fact, He thinks sexuality is a good thing, and so do I. I strongly recommend it. You don't need to be protesting based on sexuality. It's not that's not God's hot button; religion is, and politics is.

1:36:29 God tells Shamuw'el, "I'm going to tell you the 12 things that will happen to the people because they've chosen to be political instead of relying on Me. It's terrible. They're going to go off to war. He's going to sacrifice your sons and daughters for his greed. He will bribe the inner circle around him to have a bunch of cronies." Boy, is that ever true in the last two coalitions that Israel has had. "They're going to tax you to death; they will take your crops and your firstborn." It goes on and on. God said, "This is what's going to happen. Don't do this. It's bad for you." And they did it. They became indistinguishable from the Gentiles by design.

1:37:36 Yahowah is worth knowing. He tells a consistent and wonderful story, and it's presented for your consideration in the *Yada Yahowah* Series of 30- some-odd books. We encourage you to read them. They are all free. We're not selling anything. We don't take donations. There's no club to join. There is no one to follow. There's a God to be known, and we encourage you to take the time to know Him, to know the truth, and to recognize that Yahowah is bold and blunt, and if you look at the people that He likes being around, they're bold and blunt. Why did Moseh have to leave Egypt? Because he was bold enough and had enough character to know the truth that the caste system and slavery that was the girth of Mitsraym | Egypt was wrong. He saw a Taskmaster beating up a Hebrew, and he risked his own life standing up on behalf of the victim. I don't think anybody is willing to do that anymore. He did it for the right reasons, and what did Jews do? "Oh yeah. We know what you did. You're the guy that stood up to that Taskmaster. We didn't ask you to do that. We're going to tattletale on you. What do you think you are? How dare you do that". They turned on him, the one person that stood up for them.

1:39:22 Why do you think that Yahowah chose Moseh? Moseh was 80 years old, tending sheep in Arabia. Why in the world would you pick that guy? Why pick anybody to go in and liberate the children of Israel from Mitsraym | Egypt |the

Crucibles of Human Oppression? Why didn't God go in, do the Big Show in the sky, and hightail it out with His people standing 100 feet tall and looking like the Greek gods of old? Because Moseh was aware of the politics, the religiosity, and the caste system in Egypt and not only hated it, but had stood up against it. (He was the only)? person on the planet who understood how evil it was and had left it. Now, is that a clue for you if you want to be used by Yahowah?

1:40:22 Why did He pick 'Abraham before that? Because 'Abraham and Sarah had walked away from Ur of the Chaldeans | Babylon because they were disgusted by it. Why did He choose Noah before that? Because Noah stood apart. He didn't want anything to do with those super religious, political, and militaristic cultures that were around him, and he and his family lived set apart. Are you seeing a picture here that's emerging?

1:40:55 Look at Dowd, who He found tending sheep out there in Bethlehem at eight years old and said this is my kind of guy. What was he? Brilliant, articulate, courageous, a lovable rogue, a man who didn't mince words and never pulled a punch. He would tell you what was true. That's the kind of boldness that Israel needs today, someone who's willing to tell the whole truth about the Fakestinians, the Temple Mount, which is the catalyst for so much of this, the whole truth about Islam and Judaism, the whole truth about who Yahowah is, that Yowm Kipurym is the opposite that is being portrayed, that Matsah is the most important and that it's being ignored, that Dowd is your Savior, that he was the Passover Lamb, that he's your Messiah, that the rabbis did enormous damage to Israel and God's people when they did not refute the emerging religion of Christianity with an explanation that everything you're saying about this myth of "Jesus Christ" is actually true of Dowd and here's why. Christianity would have been stillborn, and no Holocaust or diaspora. And if rabbis hadn't sold their Talmud stories to Muhammad, the Quran would not have exceeded just the ongoing rant of You're a lying piece of shit, Muhammad; none of what you're saying is true. N n n n n my God hates you. I'm going to burn your britches in Hell because you don't like my god - that would be the entirety of the Quran. Islam doesn't exist without rabbis selling Muhammad Talmud stories and then mocking him.

1:43:04 Come to know the truth. It's liberating, uplifting, empowering, and enriching. Yahowah is worth knowing. Study the story of Hezekiah, what happened at the Waters of Marybah, the story of 'EiYah, and the Mizmowr of Dowd. Read the *Yada Yahowah Series*. Go to *Prophet of Doom*. Every book on the shelf is there for you to study for free, and even the beginnings of the redrafted *God Damn Religion* that explains the truth about Islam. It's all there for you; it's our gift. We want nothing other than you to have access to the truth and to approach it with an open mind, and to make an intelligent decision about Yahowah.

1:44:06 Well, I didn't know what we were going to talk about tonight. Kirk had sent me a note and said we're going to talk about *God Damn Religion* and what's happening in Israel, and I said okay. I started reading *God Damn Religion*, and I realized that I didn't want to read it to you, so I thought this would be the opposite this evening, and we were just going to talk about the things that are important for Israel to know, and I think it turned out okay.

So, please, Israel, don't go another day without coming to know the truth. Go to [yadayah.com](http://yadayah.com). Everything there is free. There are no donate buttons. There's no caveat. Every book on the shelf is entirely free for your consideration. They were written for you. Of all times, now is the time to read it, and I would imagine that within days the first four chapters of *God Damn Religion* will be posted on the far-right side of the bookshelf for you to read. Please do so.

Thank you very much for listening. I hope you have a wonderful Shabat, and let's hope that we have enough time to awaken enough Yahuwd to make a difference in their lives and in the life of Israel before the second phase of the October 7th War.

May God bless you all. Good night.
